

AMENDED IN ASSEMBLY JUNE 17, 2003

SENATE BILL

No. 651

Introduced by Senator McPherson

February 21, 2003

An act to amend Section 52335.2 of the Education Code, relating to school finance.

LEGISLATIVE COUNSEL'S DIGEST

SB 651, as amended, McPherson. Regional occupation centers: apportionments.

Existing law requires the Superintendent of Public Instruction to calculate a revenue limit for each regional occupational center or program (ROC/P) based on a specified formula. Existing law required the superintendent, prior to making calculations under that formula for the 1998–99 fiscal year, to make an adjustment to the formula relating to average daily attendance.

This bill would eliminate that adjustment requirement for the 1998–99 fiscal year.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 52335.2 of the Education Code is
- 2 amended to read:
- 3 52335.2. The Superintendent of Public Instruction shall
- 4 calculate a revenue limit for each ROC/P in the following manner:
- 5 (a) Calculate a base revenue limit per unit of average *daily*
- 6 attendance for the current fiscal year as follows:

1 (1) Divide the revenue limit for the prior year computed
2 pursuant to this section by the annual units of average daily
3 attendance funded in the prior year pursuant to subdivisions (c)
4 and (d).

5 (2) Increase the amount computed in paragraph (1) by the
6 percentage inflation adjustment specified in the Budget Act for the
7 current fiscal year multiplied by the statewide average ROC/P
8 revenue limit per unit of average daily attendance for the prior
9 fiscal year.

10 (b) Calculate a revenue limit per unit of average daily
11 attendance for program growth by increasing the revenue limit per
12 unit of average daily attendance for program growth computed
13 pursuant to this subdivision for the prior fiscal year by the
14 percentage inflation adjustment specified in the Budget Act for the
15 current fiscal year.

16 (c) Multiply the amount computed pursuant to subdivision (a)
17 by the lesser of the ROC/P's annual units of average daily
18 attendance for the current fiscal year or the ROC/P's annual units
19 of funded average daily attendance for the prior fiscal year.

20 (d) Subtract the ROC/P's annual units of funded average daily
21 attendance for the prior fiscal year from the ROC/P's annual units
22 of average daily attendance for the current fiscal year and multiply
23 the difference by the amount computed pursuant to subdivision
24 (b). If the product computed pursuant to this subdivision is
25 negative, it shall be deemed to be zero.

26 (e) Except as provided in Section 52335.3, the Superintendent
27 of Public Instruction shall apportion to the ROC/P the sum of the
28 amounts computed pursuant to subdivisions (c) and (d).

29 (f) The average daily attendance used for purposes of this
30 section may not include the average daily attendance in schools
31 receiving funding pursuant to Section 52324.6.

32 (g) Any state funds made available as a result of local property
33 tax revenues deducted pursuant to Section 52335.3 shall be
34 allocated to each ROC/P in an equal amount per unit of funded
35 average daily attendance and may not be included in the
36 calculation of the base revenue limit made pursuant to subdivision
37 (a) for the subsequent fiscal year.
